Food and Agricultural Import Regulations and Standards - Certification

FAIRS Export Certificate Report

Approved By:

Christine Sloop

Prepared By:

Tatjana Maslac

Report Highlights:

This report provides guidance on the certificate requirements for agricultural and food products imported into the Serbian market and includes the certificates that are standardized between the Serbian Ministry of Agriculture and Environmental Protection and the relevant US authorities (USDA/APHIS, USDA/FSIS, USDA/AMS, and FDA). In 2014, APHIS and the Serbian Ministry of Agriculture and Environmental Protection continued to work on finalizing a Veterinary Health Certificate for Treated Hides and Skins, a Veterinary Health Certificate for Canned Pet Food and other Processed Pet Food, a Veterinary Certificate for Feed Containing and not Containing Feedstuffs of Animal Origin, a Veterinary Health Certificate for Horses (registered equidae for breeding and production), a Veterinary

Health Certificate for Beef and Beef Products, a Veterinary Health Certificate for Aquaculture animals for farming and a Veterinary Health Certificate for Treated Game Trophies and other Preparations of Birds and Ungulates.

Section I. List of All Export Certificates Required By Government (Matrix) :

Sections that have been updated include: Sections I, II and Appendix I.

AUTHOR DISCLAIMER:

This report was prepared by the Office of Agricultural Affairs of the USDA/Foreign Agricultural Service in Belgrade, Serbia for U.S. exporters of food and agricultural products. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

No.	Product(s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry/Agency
1	For fishery products	Health Certificate for fish products from the United States intended for the Republic of Serbia	Harmonized with US requirements. See Section II, #1	Animal and public health	Ministry of Agriculture and Environmental Protection
2	Breeding swine	Health Certificate for	Harmonized with US requirements. See Section II, #2	Animal health	Ministry of Agriculture and Environmental Protection
3	Fresh and frozen meat of domestic swine intended for human consumption	Veterinary Health Certificate	Not yet standardized with international or EU requirements relating to trichinae.	Animal and public health	Ministry of Agriculture and Environmental Protection
4	Canned pet food	Veterinary Health Certificate	Serbia seeks a Health Certificate similar to the EU's. However, it is still not endorsable by APHIS. Currently	Animal health	Ministry of Agriculture and Environmental Protection

			being discussed.		
5	Processed pet food other than canned pet food	Veterinary Health Certificate	Serbia seeks a Health Certificate similar to the EU's. However, it is still not endorsable by APHIS. Currently being discussed.	Animal health	Ministry of Agriculture and Environmental Protection
6	Feed containing feedstuffs of animal origin	Veterinary Health Certificate	Serbia seeks a Health Certificate similar to the EU's. However, it is still not endorsable by APHIS. Currently being discussed.	Animal health	Ministry of Agriculture and Environmental Protection
7	Feed and feed additives not containing feedstuffs of animal origin	Veterinary Health Certificate	Serbia seeks a Health Certificate similar to the EU's. However, it is still not endorsable by APHIS. Currently being discussed.	Animal health	Ministry of Agriculture and Environmental Protection
8	Dairy Products	Sanitary Certificate f	Harmonized with US requirements. See Section II, #8	Animal and public health	Ministry of Agriculture and Environmental Protection
9	Breeding cattle	Animal Health Certificate	Harmonized with US requirements. See Section II, #9	Animal health	Ministry of Agriculture and Environmental Protection
10	Bovine semen	Health Certificate	Harmonized with US requirements. Section II, #10	Animal health	Ministry of Agriculture and Environmental Protection
11	Bovine embryos	Health Certificate	Harmonized with US requirements. Section II, #11	Animal health	Ministry of Agriculture and Environmental Protection
12	Class B shell eggs	Health Certificate	Harmonized with U.S requirements/accepted EU model for Export Health Certification for Serbia. See Section II, # 12	Animal and public health	Ministry of Agriculture and Environmental Protection
13	Registered equidae for breeding and production	Health Certificate	Still not endorsable by APHIS. Currently being discussed.	Animal health	Ministry of Agriculture and Environmental Protection

14	Meat products	Health Certificate	See Section II, #14 for updates	Animal and public health	Ministry of Agriculture and Environmental Protection
15	Poultry meat and poultry meat products	Veterinary Health Certificate FSIS Form No. 9060-5	Standardized. See “Import procedures for the U.S. poultry meat and poultry meat products intended for the Republic of Serbia” - Section II, #15	Animal and public health	Ministry of Agriculture and Environmental Protection
16	Poultry meat and poultry meat products	Certificate of wholesomeness and FSIS Form 9235-1	Standardized. See “Import procedures for U.S. poultry meat and poultry meat products intended for the Republic of Serbia” - Section II, #16	Animal and public health	Ministry of Agriculture and Environmental Protection
17	Poultry meat and poultry meat products	Certificate for Wholesomeness (Bilingual)	Standardized. See “Import procedures for the U.S. poultry meat and poultry meat products intended for the Republic of Serbia” - Section II, #17	Animal and public health	Ministry of Agriculture and Environmental Protection
18	Treated hides and skins	Health Certificate	Serbia seeks a Health Certificate similar to the EU’s. However, it is still not endorsable by APHIS. Currently being discussed.	Animal health	Ministry of Agriculture and Environmental Protection
19	Aquaculture animals for farming, relaying, put and take fisheries and open ornamental facilities	Health Certificate	Serbia seeks a Health Certificate similar to the EU’s. Currently being discussed between APHIS and Serbian Veterinary Office.	Animal and public health	Ministry of Agriculture and Environmental Protection

20	Plants, plant products and planting seed materials	Phytosanitary Certificate	Not standardized, although Serbia follows IPPC guidelines. See Section II, #20: PPQ Form 577	Plant protection	Ministry of Agriculture and Environmental Protection
21	Plants, plant products and planting seed materials	Phytosanitary Certificate for re-export	Not standardized, although Serbia follows IPPC guidelines. See Section II, #21: PPQ Form 579	Plant protection	Ministry of Agriculture and Environmental Protection
22	Beef and Beef products	Health Certificate	Serbia seeks a Health Certificate similar to the EU's. However, it is still not endorsable by FSIS. Currently being discussed.	Animal and public health	Ministry of Agriculture and Environmental Protection
23	Plant and plant products	Quality Certificate	Not standardized, but preference is that it be issued by an independent institution in the country of export.	Plant protection	Ministry of Agriculture and Environmental Protection
24	Organic products	Certificate of organic products	Foreign /U.S. certificate has to be re-certified by a Serbian institution. See Section II, #23	Food safety/ plant protection	Ministry of Agriculture and Environmental Protection
25	Food products and alcoholic beverages	Health Certificate	Not standardized, but preference is that it be issued by an independent institution in the country of export..	Food safety, plant protection, sanitary inspection	Ministry of Agriculture and Environmental Protection, Ministry of Health
26	Food products and alcoholic beverages	Certificate of Origin	Not standardized, but preference is that it be issued by an independent institution in the country of export.	Food safety, plant protection, sanitary inspection	Ministry of Agriculture and Environmental Protection, Ministry of Health
27	Food products and alcoholic beverages	Certificate of Quality	Not standardized, but preference is that it be issued by an independent institution in the country of	Food safety, plant protection, sanitary	Ministry of Health and Ministry of Agriculture and Environmental

			export.	inspection	Protection
28	Seed Materials	ISTA - International Seed Testing Association Certificate	Can be obtained from the International Seed Testing Association (ISTA).	Plant protection	Ministry of Agriculture and Environmental Protection
29	Seed Materials	OECD Varietal Certification of Seed for International Trade	Can be obtained from the OECD	Plant protection	Ministry of Agriculture and Environmental Protection
30	Food products	Certificate of Radiation (for food from certain geographic areas)	Not standardized, but preference is that it be issued by an independent institution in the country of export.	Food Safety	Ministry of Health and Ministry of Agriculture and Environmental Protection

Section II. Purpose of Specific Export Certificate(s)

1. Health certificate for fish products intended for export from the United States to the Republic of Serbia.

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches the place of destination. It identifies the consignment, the origin of the product, the destination of the product and provides health attestations.

The certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate.

This certificate was harmonized with the related U.S. regulations in 2008.

For a sample of the required certificate please go to web page:

http://www.seafood.nmfs.noaa.gov/export/export_certification/export_certification.html

2. Health certificate for breeding swine intended for export from the United States to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches the place of destination. It is for animal identification (Reg. no. of herd, earmark or tattoo, breed, sex, date of birth), and provides information on the destination of the animals and health information about the animals.

The certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary

Directorate.

This certificate was harmonized with the related U.S. regulation in 2009.

For a sample of the required certificate please go to web page:

http://www.aphis.usda.gov/regulations/vs/iregs/animals/animal_serbia.shtml

3. Veterinary certificate for fresh and frozen meat of swine for human consumption intended for export from the United States in the Republic of Serbia

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment until it reaches its destination. It identifies the consignor, consignee, origin of the meat, intended destination of the meat, establishment address, registration (approval) number, means of transport and consignment, individual types of the meat included in the consignment and animal health attestation.

The certificate is required by the Ministry of Agriculture and Environmental Protection -Veterinary Directorate.

Serbia currently is not accepting the U.S. veterinary certificate for export of fresh or frozen meat of swine due to the fact that it does not recognize the U.S. or international methods of treating trichinae by freezing meat. Serbia requires trichinae testing of all imported U.S. fresh or frozen meat of swine. The USDA's Food Safety Inspection Service is currently discussing the international standards and Serbian testing requirements with the Serbian Veterinary Directorate.

4. Veterinary certificate for canned pet food intended for export from the United States to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It identifies the consignor, consignee, origin of fat derivatives, destination of the products, place of loading for export, means of transport and consignment, the type of pet food and health attestation.

This certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate.

Serbia is requiring the same as a Health Certificate for canned pet food destined for or transiting through the European Union. This certificate is still not endorsable by APHIS, although discussions are ongoing, even EU accepted that US status of BSE changed to negligible risk.

5. Veterinary certificate for processed pet food other than canned pet food intended for export from the United States to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It identifies the consignor, consignee, destination of the products, place of loading for exportation, means of transport and consignment, of the type of pet food and health attestation.

This certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate.

Serbia is requiring the same as the Health Certificate for processed pet food other than canned pet food destined for or for transit through the European Union. This certificate is still not endorsable by APHIS, although discussions are on-going, even EU accepted that US status of BSE changed to negligible risk.

6. Veterinary health certificate for feed containing feedstuffs of animal origin intended for export from the United States to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It identifies the consignor, consignee, origin of the feed when feedstuffs contain animal origin materials, destination of the feedstuffs of animal origin, identification of the feed including the animal species from which the feedstuff originates, name, address and veterinary approval number of the approved or registered production establishment, list of ruminant farmed animals intended to be fed with this feed, processing methods of animal by-products, place of loading for exportation, means of transport and consignment identification and health attestation.

This certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate.

Serbia has the same requirements as the Health Certificate for feed containing feedstuffs of animal origin destined for or for transit through the European Union, although the OIE BSE categorization of the United States is “negligible risk”.

7. Veterinary health certificate for feed and feed additives not containing feedstuffs of animal origin intended for export from the United States to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It identifies the consignor, consignee, origin of the feed and feed additives not containing feedstuffs of animal origin, destination of the feed and feed additives without feedstuffs of animal origin, name, address and veterinary approval number of the approved or registered production establishment, packaging materials, rules for properly marking packaging materials, place of loading for export, means of transport and consignment identification and health attestation.

This certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate.

Serbia has the same requirements as the Health Certificate for feed and feed additives not containing feedstuffs of animal origin destined for or for transit through the European Union, although the OIE BSE categorization of the United States is “negligible risk”.

8. Sanitary certificate for dairy products intended for export from the United States to the Republic of Serbia

This certificate has been harmonized with the related US regulations since 2008. It covers heat-treated milk; milk-based products made from heat-treated milk or heat-treated milk-based products for human consumption for export to the Republic of Serbia.

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment until it reaches its destination. It identifies the consignor, consignee, and the dairy product, and includes a product description as well as a sanitary attestation.

This certificate is required by the Ministry of Agriculture and Environmental Protection -Veterinary Directorate.

For a sample of the required certificate please go to web page:

http://www.aphis.usda.gov/regulations/vs/iregs/products/product_serbia.shtml

9. Animal health certificate for breeding cattle intended for export from the United States to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It identifies the exporting country, competent ministry, issuing authority, country of destination, animal species, animal identification and description, consignor, consignee, registration number (approval), means of transport and consignment and animal health information.

This certificate was harmonized with the related U.S. regulation in July 2011.

The certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate.

For a sample of the required certificate please go to web page:

http://www.aphis.usda.gov/regulations/vs/iregs/animals/animal_serbia.shtml

10. Health certificate for bovine semen intended for export from the United States of America to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It identifies the semen the country of collection, origin of the semen, the destination of the semen, the donor animal and provides health attestations.

This certificate is harmonized with the related U.S. regulation in November 2009.

The certificate is required by the Ministry of Agriculture and Environmental Protection, Veterinary Directorate.

For a sample of the required certificate please go to web page:

http://www.aphis.usda.gov/regulations/vs/iregs/animals/animal_serbia.shtml

11. Health certificate for bovine embryos intended for export from the United States of America to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It identifies the embryos, the country of collection, the origin of embryos, the destination of the embryos, the donor animals, and provides health attestations.

This certificate was harmonized with the related U.S. regulation in October 2009.

The certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate.

For a sample of the required certificate please go to web page:

http://www.aphis.usda.gov/regulations/vs/iregs/animals/animal_serbia.shtml

12. Health certificate for Class B shell eggs intended for export from the United States into the Republic of Serbia

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment until it reaches its destination. It identifies the consignor, consignee, and the country of origin, the country and place of destination, the commodities, the means of transport, and provides the health attestation.

The certificate is required by the Ministry of Agriculture and Environmental Protection -Veterinary Directorate.

This health certificate was harmonized in 2013. The Serbian Veterinary Service will accept the EU model Export Health Certification for destination or for transit issued by USDA's Agriculture Marketing Service (AMS).

For more info on the required certificate please go to web page:

<http://www.ams.usda.gov/AMSV1.0/PYEggExport>

For a list of the plants eligible to export to Serbia please go to web page:

<http://www.ams.usda.gov/AMSV1.0/getfile?dDocName=stelprdc5098398>

13. Health certificate for registered equidae for breeding and production intended for export from the United States of America and Canada into the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It identifies the animal, the origin and destination of the animal, and provides health attestations.

The certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate.

APHIS is working with the Ministry to agree on a harmonized certificate.

14. Health certificate for meat products intended for export from the United States to the Republic of Serbia

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment until it reaches its destination. It identifies the country of origin, the country and place of destination, describes the meat products, the origin of the meat products, the destination of the meat products and provides health attestations.

The certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate

For the US health certificate for meat products see:

<http://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/exporting-products/export-checklist>

15. Veterinary health certificate FSIS Form No. 9060-5 for exports of poultry meat and poultry meat products

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment of poultry meat and poultry meat products until it reaches its destination. It identifies the poultry meat and poultry meat products, the exporter, importer, country of origin, type of product, packaging, labeling and provides health attestations.

This certificate was harmonized with the related U.S. regulation in 2005.

<http://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/exporting-products/export-checklist>

The certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate

16. Certificate of wholesomeness and FSIS Form 9235-1 for exports of poultry meat and poultry products

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment of poultry meat and poultry products until it reaches the place of destination.

This certificate was harmonized with the related U.S. regulation in 2005.

<http://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/exporting-products/export-library-requirements-by-country/Serbia>

The certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate.

17. Bilingual Certificate for Wholesomeness

Certificate Purpose: This certificate is for public health purposes and must accompany the consignment until it reaches its destination.

The certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate

Both, FSIS Forms 9060-5 and 9235-1, must be signed by an FSIS veterinarian (with name and the function printed after the signature). Importers must obtain an import permit as well.

Import procedures for U.S. poultry meat and poultry meat products destined for the Republic of Serbia can be found in Appendix 1 of this report. A Certificate of Wholesomeness and bilingual Certificate for Wholesomeness can be obtained from USDA's Food Safety Inspection Service (FSIS).

See: <http://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/exporting-products/export-library-requirements-by-country/Serbia>

18. Health certificate for treated hides and skins intended for export from the United States to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches its destination. It is for identification of the destination, country of origin, origin of hides and skins, and health attestations.

The certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate.

Serbia has the same requirements as the Health Certificate for treated hides and skins destined for transit through the European Union. This certificate is still not endorsable by APHIS, but is in the process of being harmonized.

19. Health certificate for aquaculture animals for farming, relaying, put and take fisheries and open ornamental facilities intended for export from the United States to the Republic of Serbia

Certificate Purpose: This certificate is for animal health purposes and must accompany the consignment until it reaches the place of destination. It identifies the consignment, the origin of the product, the general and specific species requirements, the transport and labeling requirements, the destination of the product and provides health attestations.

The certificate is required by the Ministry of Agriculture and Environmental Protection - Veterinary Directorate.

Serbia has the same requirements as the Health Certificate for aquaculture animals for farming, relaying, put and take fisheries and open ornamental facilities destined for or transiting through the European Union. This certificate is still not endorsable by APHIS, although discussions are on-going.

20. Phytosanitary Certificate (for plants, plant products and seed materials)

Certificate Purpose: To certify that the plant product or other regulated articles described herein has been inspected and/or tested according to appropriate official procedures and are considered to be free of quarantine pests specified by the importing contracting party, and to confirm the phytosanitary requirements of the importing contracting party are being met, including those for regulated non-quarantine pests. The certificate also serves to identify treatments and describe the consignment.

The certificate is required by the Ministry of Agriculture and Environmental Protection -Plant Protection Directorate.

Phytosanitary Certificate, PPQ Form 577, is sometimes referred to as a FPC (Federal Phytosanitary Certificate) by certifying officials in the United States.

See: http://www.aphis.usda.gov/import_export/plants/plant_exports/downloads/ppq577.pdf

21. Phytosanitary Certificate for Re-export (for plants, plant products and seed materials)

Certificate Purpose: Phytosanitary Certificate for Re-export, PPQ Form 579 (also referred to as FPC-R), certifies that based on an original foreign phytosanitary certificate and/or an additional inspection, the plants or plant products that officially entered the United States are considered to conform to the current phytosanitary regulations of the importing country, and have not been subjected to the risk of infestation or infection during storage in the United States.

The certificate is required by the Ministry of Agriculture and Environmental Protection -Plant Protection Directorate.

Phytosanitary Certificate, PPQ Form 579, is sometimes referred to as a FPC-R (Federal Phytosanitary Certificate Re-Export).

See: http://www.aphis.usda.gov/import_export/plants/plant_exports

22. Health Certificate for beef and beef products intended for export from the United States to the Republic of Serbia

Certificate Purpose: This certificate is for animal and public health purposes and must accompany the consignment until it reaches its destination. It identifies the consignor, the consignee, the origin of the meat and meat products, the intended destination of the meat and meat products, the establishment address, the registration (approval) number, the means of transport and consignment details, , the individual types of meat and meat products included in the consignment and provides animal health attestations.

The certificate is required by the Ministry of Agriculture and Environmental Protection -Veterinary Directorate.

The USDA's Food Safety Inspection Service (FSIS) is currently discussing the international standards and Serbia's testing requirements with the Serbian Veterinary Directorate. Serbia's Veterinary Officials currently are only willing to allow demanding US beef/beef products entry if they are accompanied by an export certificate for the EU market, even though Serbia is not yet an EU member and it could be several years before it becomes one. Serbia also is following the EU's BSE and hormone policies and restrictions, even though the hormone policy was found to be non-compliant with the World Trade Organization's (WTO) Sanitary and Phytosanitary Agreement. As part of Serbia's WTO accession process., the US expects Serbia to follow the provisions of the SPS Agreement and to adopt science based standards.

23. Quality Certificate for plants and plant products intended for export from the United States to the Republic of Serbia

Certificate Purpose: To certify that the plant and/or plant product has been inspected and/or tested according to the appropriate official procedures and are considered to be in compliance with the standards of the importing contracting party.

The certificate is required by the Ministry of Agriculture and Environmental Protection - Plant Protection Directorate <http://www.uzb.minpolj.gov.rs/index.php?lang=en>

24. Certificate of Organic Products

Certificate Purpose: To attest that the imported products comply with the rules on organic production methods, as set out by the controlled body mentioned in the same document.

Currently foreign certificates for Organic Products must be re-certified and issued by one of the seven

recognized institutions listed below. Final authorization of these institutions is given each year by the Serbian Ministry of Agriculture and Environmental Protection (according to the “Official Gazette” RS 132/143 from December 9, 2014). For CY2015, the Ministry of Agriculture and Environmental Protection approved the following institutions:

1. “CONTROL UNION DANUBE”

Address: Boulevard Mihajla Pupina 21/6, 11070 New Belgrade, Serbia

Phone: + 381 11 213 9541

E-mail: spopovic@controlunion.com

Web page: www.certification.controlunion.com

2. “ECOCERT BALKAN DOO BEOGRAD”

Address: Glavna 13M/III, 11080 Zemun, Serbia

Phone: + 381 11 2198 352

E-mail: office.balkan@ecocert.com

Web page: <http://www.ecocert.rs/>

3. “ORGANIC CONTROL SYSTEM”

Address: Trg Cara Jovana Nenada 15/I, 24000 Subotica, Serbia

Phone: + 381 24 554 600

E-mail: info@organica.rs

Web page: www.organica.rs

4. “TMS CEE”

Address: Rudnicka 2, 11000 Belgrade, Serbia

Phone: + 381 11 244 1111

E-mail: office@tms.rs

Web page: <http://www.tms.rs/>

5. “ETKO PANONIJA”

Address: Trg Slobode 3, 21000 Novi Sad, Serbia

Phone: + 381 21 3101513

Web page : <http://etkopianija.org/usluge-sertifikacije>

6. “CENTAR ZA ISPITIVANJE NAMIRNICA CIN”,

Address: Zmaj od nocaja 11, 11000 Belgrade, Serbia

Phone: + 381 11 2625 077

E-mail: kontakt@cin.co.rs

Web page: <http://www.cin.co.rs/>

7. “ECOVIVENDI”

Address: Voje Veljkovica 5, II/10, 11000 Belgrade, Serbia

Phone: + 381 11 2451 377

E-mail: office@ecovivendi.rs

Web page: <http://ecovivendi.rs/>

The certificate is required by the Ministry of Agriculture and Environmental Protection, Plant Protection Directorate <http://www.uzb.minpolj.gov.rs/index.php?lang=en> .

A list of US organic certifying agents under the National Organics Program can be obtained from the following website: <http://www.ams.usda.gov>

25. Health Certificate (for food products and alcoholic beverages)

Certificate Purpose: To certify that the food product has been inspected and/or tested according to the relevant official procedures and are in accordance with the country of export’s legislation. It contains the declaration of the official authority stating that the product is fit for human consumption or for production of food intended for human consumption.

The certificate is required by the Ministry of Agriculture and Environmental Protection and the Ministry of Health.

A certificate of Free Sale from the Food and Drug Administration can be obtained from the following website: <http://www.fda.gov/Food/NewsEvents/ConstituentUpdates/ucm307264.htm>

26. Certificate of Origin (for food products and alcoholic beverages)

Certificate Purpose: To certify the origin of the foodproduct.

The certificate is required by the Ministry of Agriculture and Environmental Protection and the Ministry of Health.

A certificate of origin can be obtained from most US chambers of commerce.

27. Certificate of Quality (for food products and alcoholic beverages)

Certificate Purpose: To certify that the food product has been inspected and/or tested according to the relevant official procedures and are considered to be in compliance with the standards of the importing contracting party. The certificate content is specific to the actual product but usually contains analyzed parameters, physical and chemical characteristics, heavy metals analysis, a microbiological statement, ingredient list and nutritional value.

<http://www.fda.gov/Food/NewsEvents/ConstituentUpdates/ucm307264.htm>

The certificate is required by the Ministry of Agriculture and Environmental Protection and the Ministry of Health.

28. International Seed Testing Association (ISTA) Certificate (Seed materials)

Certificate Purpose: To certify seed quality. It contains the following information: stamp of the testing and issuing laboratory, name of applicant, species, cultivars, category, marks and weight of lot, analysis results, status of certificate, number of containers, etc.

The certificate is required by the Ministry of Agriculture and Environmental Protection.

To review this certificate please, see the following web page:

<http://www.seedtest.org/en/home.html>

29. Organization for Economic Co-operation and Development (OECD) varietal certification of seed for international trade (Seed materials)

Certificate Purpose: To certify the variety and origin of the seed material.

The certificate is required by the Ministry of Agriculture and Environmental Protection

<http://www.mpzss.gov.rs/> and <http://www.uzb.minpolj.gov.rs/index.php?lang=en>

<http://www.oecd.org/#>

30. Certification on Radiation (for Food Products)

Certificate Purpose: Certifies the level of radiation in the imported food product. The Inspector may ask for this certificate, especially if the goods are coming from an area or country where higher levels of radiation have been registered or suspected.

The certificate is required by the Ministry of Agriculture and Environmental Protection and the Ministry of Health. For US products this certificate can be obtained from FAS/Commodities and Products.

<http://www.fas.usda.gov/commodities>.

Section III. Specific Attestations Required on Export Certificate(s)

All certificates, the ones that are standardized and the ones that are not standardized are listed in Section I. Certificates that are not standardized by the Serbian Government must be issued by an independent and accredited institution in the exporting country. In addition, the Serbian Ministry of Agriculture and Environmental Protection will authorize accredited institutions in Serbia that deal with organic product certification to re-issue certificates for all imported organic products based on the certificates and import documents from the country of origin.

Section IV. Government Certificate's Legal Entry Requirements

All certificates listed in this report must accompany a product at the time of entry and must be original. They are applied to single shipments only.

Serbia does not accept the supplier or manufacturer export declaration as a proof of compliance with Serbian regulations and standards. Furthermore, inspectors have the right to ask for additional information from the producer or other related certification from the competent authorities in the exporting country. For the non-standardized certificates listed in Section I, Serbia will accept a State-issued export certificates from the United States, if these certificates are in accordance with Serbian legislation.

Section V. Other Certification/Accreditation Requirements

For food imports, international certificates on the health safety of the consignment are recognized based on bilateral and multilateral conventions as issued by the competent authority of the exporting country. If the conventions are non-existent, recognition of the international certificates and other documents will be carried out on a case by case basis.

Beside the specific and aforementioned certificate(s), all imported goods must be accompanied by commercial invoices and transportation documents at the time of entry into the Republic of Serbia.

Appendix I. Electronic Copy or Outline of Each Export Certificate

Electronic copies of Export Certificates can be founded on web links in the report. For other certificates that are not available on-line, or for more details, please contact:

FAS Office Belgrade, Serbia
