

Soybean Cake 38% Protein

Soybean round unleavened flat cake Biopro 60
(Product code LQS SBZ17ANE)

The product represents a unique source of proteins (as minimum 38%), essential amino acids, soybean oil, lecithin, minerals and vitamins soluble in fats. It is manufactured out of healthy, pilled soybeans (which are guaranteed non- genetically modified) by a particular hydrothermal treatment, within which the oil is extracted out partially.

By means of a complex technological process, above all by thermal treatment and pressing without use of chemical solvents, polysaccharides are decomposed to simple sugar molecules, which makes soybean cake BIOPORO 60 easier digestible and available to the animal digestive tract. Hydrothermal treatment of soybeans provides product of high nutritious and biological value.

Chemical composition	Value	Result
Protein	%	min. 38
Moisture	%	6 – 7
Fat	%	8 - 10
Fiber	%	max. 9
Ash	%	max 8

The product is used as protein and energy feed in nutrition of young animals and animals in growth – in nutrition of young categories of pigs and poultry with much better effects than soybean meal, due to a lower level of cellulose and hulls, and a considerably higher energy value (above all from oil).

Usage: Soybean round unleavened flat cake is used by the livestock food industry

Origin: Non-EU

Packaging: In 40kg bags or in bulk

Quality management: GMP+ certified

Non GMO
