LIQUID ENERGY TRADING COMPANY SWISS S.A.

Trockenschnitzpellets / Sugar Beet Pulp Pellets

Melassiert oder unmelassiert?

Die Farbe der Trockenschnitzpellets sagt nicht unbedingt etwas darüber aus, ob die Ware melassiert ist, oder nicht.

Die unten gezeigten Muster sind beide unmelassiert. Alleine die unterschiedliche Verarbeitungstechnologie ist in diesem Fall für die unterschiedliche Farbe verantwortlich.

Molassed or unmolassed?

The color of the sugar beet pulp pellets itself doesn't automatically show whether the pellets are molasses or unmolasses.

Both below samples are unmolassed. The difference in color is solely due to the different technology that is used during the processing.

Liability

The information contained herein is based on technical data that Liquid Energy Trading Company Swiss SA (later on called LetCo) believes to be reliable and accurate, but disclaims any warrant or guarantee, express or implied. LetCo reserves the right to change information contained herein without prior notice. Any information included herein taken solely or as a whole, does not suggest in any way the product is of satisfactory quality or is adequate for a particular purpose. The purchasing party is not released from the burden of carrying out his own tests and experiments. Because conditions of use of this product are outside our control, LetCo excludes any legal or other liability for the use of this information or any part of it, whether or not based on LetCos negligence, and therefore LetCo shall not be liable for any damages (special, direct, indirect, consequential damages) relating to the use of this information or the use of the product referred herein, solely or in combination with other products. Consequently all liability on the part of LetCo is excluded. Furthermore, our sales and delivery conditions will apply accordingly.
